Centre rolls out AI-driven UPSC, SSC recruitment reforms

The Centre has introduced a series of AI-enabled and digital reforms to make recruitment conducted by the Union Public Service Commission (UPSC) and the Staff Selection Commission (SSC) faster, more transparent and secure. According to Union Minister of State Jitendra Singh, the measures have reduced the UPSC recruitment cycle from over 15 months to around 13 months and the SSC recruitment process from 15-18 months to 6-8 months. The reforms include a modular online application portal to simplify registration, AI-based verification of candidates' Civil Services Examination attempts, facial authentication to prevent impersonation, publication of provisional answer keys with a structured representation mechanism, a dedicated candidate helpdesk, expansion of examination centres, and guaranteed preferred examination centres for PwD. The SSC has reduced the number of examination tiers, shifted entirely to CBTs, introduced a secure e-Dossier system for the digital transfer of recruitment records, and implemented a sliding mechanism to fill vacancies that might otherwise remain unoccupied. The e-Dossier system replaces the earlier practice of physically transferring candidate records between the SSC and recruiting departments, enabling faster and more secure processing of appointment-related documents. The government said these reforms are aimed at streamlining recruitment while strengthening the transparency, integrity, and credibility of examinations.
