BIG TALK. SMALL STEPS.

Make your goals measurable through repetition, not motivation. Convert the intention into a routine, lock a time slot, and treat the first step like a non-negotiable appointment.

Vague resolution	A simple system (daily or weekly)	Tiny first step (do today)
"Get better grades this semester"	Four focused study blocks a week (45-60 minutes), phone kept away, plus one weekly revision slot	Pick one subject and schedule the first 45-minute block
"Stop procrastinating"	Start every task with a 10-minute timer, then take a 3-minute break, then continue	Set a 10-minute timer and do the first tiny chunk now
"Improve my English"	15 minutes daily: read one article, note five words, use two in a sentence	Pick one news article and write down five new words
"Build a skill for my career"	Two sessions a week on one skill (course, project, or portfolio), plus a Sunday recap of what you learned	Choose one skill and one free resource, then block one session
"Be more confident at work or in college"	One weekly "discomfort rep": speak once in a meeting, ask one question in class, or pitch one idea	Write one question you can ask in your next class or meeting
"Get fitter"	20 minutes movement, five days a week, plus one fixed meal or sleep rule	Go for a 10-minute walk right now, then set tomorrow's time
"Save more money"	Auto-transfer a fixed amount on salary or pocket-money day, plus a weekly expense check	Decide the amount and set up one auto-transfer
"Reduce screen time"	Move distracting apps off the home screen, set app limits, and create one phone-free hour daily	Turn off non-essential notifications & set one app limit
